Latest Version of VidMate for Android VidMate new version available now has fixed several bugs in the previous versions and added new more user-friendly features. Update to the latest version and explore more incredible functions. VidMate for PC and IOS has not launched yet and we are working on it. If you have any suggestion or recommendation on any features or functions feel free to tell us. Download VidMate APP and Enjoy VidMate makes speedy media downloads online easy and possible. It is your go-to-media downloader that makes all available online media just within your reach. When installing VidMate APK, there may be a warning on your phone as you are installing an APK out of Google Play. In order to successfully install, please navigate to Setting > Security, then check on the option "Unknown Sources". Tap OK on the prompt message and select "Trust", now you are able to install the app on your phone. Please notice that the official VidMate APK download is now only available on the official website or 9apps. VidMate APK has not launched on Google Play yet due to Google's current policy that prohibits downloading videos from YT. We hereby certify that VidMate app does not have any viruses. Please beware of fake websites, identify the official website and feel safe installing the APK. Thank you for your understanding and we do appreciate your trust. If there are any other questions, please contact as via our one and only official E-Mail address: [email protected] The age of information and easy access to the internet has given way to an unprecedented increase in online media consumption and video streaming. While the number of people with subscriptions to Netflix, Hulu, Hotstar, and YouTube continues to rise, there remains a substantial bunch of people who prefer to watch videos the old-school way, via video playing apps (like VidMate). Download your favorite videos with VidMate Apk for Android and iOS. A lot of these people love to have video files on their phones and computer for easy access and choose not to spend a ton of money on video streaming services. And playing videos these days is not as complicated as it used to be. Most of the mainstream video players in the market these days can play videos in diverse formats no matter what codec, and that too, without any difficulty. VidMate APK File Information: App nameVidMate Apk DeveloperNemo Studio PlatformAndroid, iOS Size14.8M VersionVaries with device Installs500 Million+ PriceFree VidMate apk is a free app that lets users download videos for free. It is compatible with Windows 10 and can be used in combination with many video-sharing apps like Vimeo, Facebook, Instagram, and Facebook. For people fond of watching and consuming visual knowledge via platforms like YouTube, and looking to save them through a video downloader, this app is their best bet. Video sharing apps usually do not feature downloading amongst their options. This app lets users do this and a lot more. One can directly download video files from YouTube, and what makes the VidMate apk great is that it saves the downloaded file in your phone or device storage only. What else can you do with VidMate? Apart from letting users download videos from video-sharing sites, the app has several other features. Some of them are. The app enables you to download or install other apps. It also helps you watch movies of your choice on third-party sites that let you stream movies for free. The seamless streaming ensures your videos are in High-Definition and of the best quality. Users can stream music and download songs from YouTube with the help of this app. The Vidmate apk has a unique feature that lets users convert video files into audio. So now you can download your favorite song video from YouTube and have it transformed into an audio format of your choice. Who are the creators? This highly popular video-sharing app has been developed by a team of Indian designers who made sure that the app not only made video streaming and downloading effortless, but also had an easy-to-use interface. Besides letting users download videos from Facebook or YouTube, the app also has its own database of several Indian as well as international movies, tv shows, and sitcoms that are all downloadable. It also lets users download songs for free. The app has garnered widespread popularity, particularly across south-east Asia, in countries like Indonesia, Bangladesh, Pakistan, and India. Ranked amongst the top in its category, VidMate apk makes video streaming and downloading especially simple with its secure connections to YouTube, Tumblr, Instagram, and Vimeo. It also has an easy search option wherein you can type in the name of the video you intend to watch and the app, then displays relevant search results across all platforms. Know the steps to download the app There are a number of steps users must follow to download the app. Downloading it from the official site is the best bet. Some third-party sites and stores let you download the app as well, but doing it from the site is safer and more convenient. Download the VidMate apk file on your phone. Once you're done downloading it, tap on the Install button. How to download VidMate for your PC Besides downloading the app on your phone, you can also install it on your PC, in case you do not have ample storage in your phone memory. Installing it on your PC not only makes downloading easier but also lets you watch and download more videos, coupled with a fantastic watching experience. A bigger screen and more storage space mean you don't have to squint your eyes to watch that Marvel film you have been waiting for, for months. You simply need a software called Bluestacks and have the .apk file for VidMate installed on Bluestacks. You are now ready to watch videos on your PC via this amazing app! What are the formats allowed on the app? A great video playing app lets users download videos in any format as they please. And the app does just that. Formats have always been somewhat of a stumbling block for app developers; most users come across the problem of apps offering download formats that they do not prefer and hence end up not downloading at all. Sometimes, android phones do not support specific formats, and the file has to be removed. The app is wonderful in the way that it can support multiple formats and also gives you an option to choose between them. This means all that you want to watch and save can be saved in diverse formats, including AVI,mp4, 3gp, FLV, and others. Speed The app's unique selling point includes its speed and easy-to-stream interface. Most users are faced with the problem of apps that shut down temporarily or have bugs that corrupt files or even delete them, without the user's permission. This results in users who are dissatisfied with the entire experience and end up uninstalling the apps. VidMate's developers have made sure users face no such issues and the app is equipped to download files two hundred % faster than most applications. The app is made with advanced technology that sucks the optimum speed out of your internet. It makes video watching and downloading a truly hassle-free experience. What makes the app unique? Almost all of the video content on the app can be watched in ultra HD resolution. It also offers users several different viewing options to choose from, say, 720p, 480p or 1080p. It is programmed to intelligently detect the make of your device so that it can suggest the best viewing resolution for you. So that means, if you do not possess the latest technology or the means to have one, the app will let you stream a less data-consuming format and give you the best experience. VidMate apk gives you a genuinely novel video watching experience while letting you share your best video moments, with your friends, all in the comfort of a single app. FAQ:
